

Certified Nurse Aide In Long-Term Care Facilities

The Certified Nurse Aide in Long-Term Care Facilities Program is a New Jersey Department of Health and Senior Services approved training course. This program consists of a minimum of 90 hours of training, which equates to 50 hours of classroom instruction and 40 hours of clinical experiences. Students will be exposed to four defined modules, which include:

- Module I Core Curriculum for Nurse Aide Personnel in Long-Term Care Facilities
- Module II Psycho-Social Needs of the Resident
- Module III Physical Needs of the Resident
- Module IV Spiritual, Recreational and Activity Needs of the Resident

The objective of this program is to provide students with basic nurse aide knowledge and skills needed to care for residents and prepare nurse aides to assume the responsibilities of a trained care-giver. Upon completion of this course, students will be eligible to take the Nurse Aide in Long-Term Care Competency Evaluation to gain New Jersey DHHS CNA certification.
