

ATTENTION PARENTS ----- POWERSCHOOL HAS CHANGED

The most recent version of PowerSchool requires parents to complete the following procedures in order to create a ***Single Sign-On*** account. This Single Sign-On account can be used to access information for all of your children in the school district using **ONE** username and password.

To create a parent account, access the PowerSchool public portal as normal, click on Create Account and enter the following information:

- **Name** - Your first and last name
- **Email** - Student notifications and correspondence related to your parent account will be sent to this email
- **Desired Username** – Please create a username for your PowerSchool identity (do not use your email address)
- **Password** – Please create a password at least 6 characters long and is case sensitive (SCVTS will not have your new username and password so please keep a record for your reference)
- **Student Access Information** - Information for a minimum of one student, including the student name, **Parent Access ID**, **Parent Access Password**, and your relationship to the student. The **Parent Access ID** and **Parent Access Password** have not changed for your child and were printed on their schedule. If you have more than one child that attends the Vo Tech, you will need to look at their schedule and obtain your parent Access ID and password for that child.
- Press Enter at bottom of page
